Washington State Citizens Committee on Pipeline Safety

October 28, 2005

Stacey Gerard
Acting Assistant Administrator/Chief Safety Officer
U.S. Department of Transportation
Pipeline and Hazardous Materials Safety Administration
400 7th Street SW, Room 2103
Washington, DC 20590

Dear Ms. Gerard:

At our October meeting, the Washington State Citizens Committee on Pipeline Safety asked that I write you and congratulate you on the Office of Pipeline Safety's new Stakeholder Communications website. We have browsed the site and have found it to be attractive, easy to navigate and informative. In short, the hard work in preparing this site has paid off.

We recognize that this website is evolving and we look forward to contributing ideas in the future as to additional information that should be made available via this website. As for now, our only suggestion for improvement is to provide information in other languages, particularly Spanish.

Please extend our congratulations to all those who worked on this project. Good job!

Sincerely,

Katie Hansen
Chair
